

## Google Scholar (Off-campus) linking to the University of Cumbria library resources

When you search [Google Scholar](#), on a university computer, you will find that resources available in the University of Cumbria library catalogue are highlighted with a **FindIt@Cumbria** link:

[Colorimetric method for determination of sugars and related substances](#) FindIt@Cumbria  
..., KA Gilles, JK Hamilton, PA Rebers, F Smith - Analytical ..., 1956 - ACS Publications  
Simple sugars, oligosaccharides, polysaccharides, and their derivatives, including the methyl ethers with free or potentially free reducing groups, give an orangeyellow color when treated with phenol and concentrated sulfuric acid. The reaction is sensitive and the ...  
Cited by 33904 Related articles All 7 versions Cite Save More

Clicking on the FindIt@Cumbria link will take you to the Journal article and you will normally be automatically logged in to that Journal Archive in order to view the full text.

It is very easy to set up the FindIt@Cumbria links on your own computer; although you will need to log into the associated Journal Archives, using your network (institutional) username and password.

### Open Google Scholar (and optionally log into Google)

1. Go to Google Scholar, using your own computer or device:  
<https://scholar.google.com/>
2. Optionally sign in to (or create) your Google Account. The Sign in link is in the top left-hand corner of the screen. Signing in will allow Google to retain your Google Scholar settings on any computer where you sign into Google including any articles that you want to save for later and citations.

### Changing Google Scholar search settings

3. Select **Settings**:

4. On the next screen – you probably want to deselect “**include patents**” for most scholarly searches (you can always tick it next time if you need to do a Patent Search).

The screenshot shows a search settings interface. On the left, there is a vertical menu with options: Search results, Languages, Library links, Account, and Button. A red arrow points to 'Library links'. On the right, under the 'Collections' section, there are two radio button options: 'Search articles (  include patents )' and 'Search case law'. A red arrow points to the 'include patents' checkbox, which is currently unchecked. Below this, there is a 'Results per page' section with a dropdown menu set to '10' and a note: 'Google's default (10 results) provides the fastest results.'

5. Select **Library links**.
6. On the Library links page, you can now do a search for “**Cumbria**” which will bring up the following three University of Cumbria options:

The screenshot shows a page titled 'Show library access links for (choose up to five libraries):'. It features a search input field containing 'cumbria' and a search button. Below the search field, there is a list of library options with checkboxes: 'Open WorldCat - Library Search', 'University of Cumbria - FindIt@Cumbria', 'UNIVERSITY OF CUMBRIA - ProQuest Fulltext', and 'University Of Cumbria - EBSCOhost Full Text'. A red box highlights the last three options. Below the list, there is a paragraph of text explaining that online access to library subscriptions is usually restricted to patrons of that library. At the bottom right, there are 'Save' and 'Cancel' buttons. A red arrow points to the 'Save' button.

7. Tick all of the options (and optionally the Open WorldCat Library) and click **Save**.
8. You Google Scholar search results will now show you **FindIt@Cumbria** links alongside your search results.
